What if you receive a digital document that has a large strong black history? Is that background colour 100 pct black, or could it possess 50 pct green and yellow as well?.. You can quickly spot the locations that have too much ink by preflighting your PDF using Adobe Acrobat Pro or other preflight software (Enfocus Pitstop is highly recommended too).. A ideal solution for needing to know approximately how very much a print out work will cost before printing it.
