FAQ

This gives you a chance to open any hyperlink that you get without leaving the app, which can spare you heaps of time.. If you still need the Kik App on Mac, there is a workaround, and that is what we're here to talk about today.. Download Kik and enjoy it on your iPhone, iPad, and iPod touch And although Kik is available for every major operating system, including Windows, iOS and Android, there is still no Kik App on Mac systems.

While it makes it much harder to find friends, as you can't automatically populate your friends list via phone number, it does provide that extra layer of privacy since you don't have to give out any personal details Once you've found some friends who are also using kik you can start chatting by clicking on the chat bubble.
