The screenshot shows a Mac desktop with a web browser window displaying a list of files and their scan results. The files are listed in a table with columns for Name, Size, Kind, and Result. The results show various malware detections, including viruses, applications, backdoors, and trojans. An Apple security alert dialog box is overlaid on the browser window, warning that Apple Web Security has detected Trojans and is ready to remove them. The dialog box includes a yellow warning triangle icon and buttons for 'Cancel' and 'Remove all'. A watermark for 'MACDefender Malware fake virus scan' and 'ObamaPacman.com' is visible over the alert dialog. At the bottom right of the browser window, a summary of the scan results is displayed: 'Total : 81 viruses found', 'Critical : 60 threads', and 'Security : affected by virus'. The text 'Your computer is infected' is also visible at the bottom of the browser window.
